SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Commissioner for Patents
PO Box 1450
Alexandria, Virginia 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56. A copy of the listed documents are being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b)(3), before the mailing of a first office action on the merits.

RELEVANCE OF THE DOCUMENTS

JP 11 222402 is a Japanese language application. An English language counterpart of JP 11 222402 is not available. However, Applicants have submitted a corresponding English language abstract, which states: "This antimicrobial polymer particle is obtained by supporting an antimicrobial metal component capable of forming coordinate bond to a functional group (silver component or the like) on a hydrophilic polymer particle (0.1 nm to 100 µm average particle diameter) consisting of hydrophilic polymer gel having a crosslinked structure comprising hydrophilic units each containing a nitrogen atom, units each having a functional group containing at least one atom selected from oxygen nitrogen and sulfur and crosslinked units." The absence of a translation or an English-language counterpart document does not relieve the PTO from its duty to consider any submitted document (37 CFR §1.98 and MPEP § 609).

WO 01/11956 is a French language PCT application. An English language counterpart of WO 01/11956 is not readily available. However, according to the abstract for WO 01/11956, the application relates to "novel bioactive agents, comprising a dendritic polymer and at least a compound based on a biocidal metal or biocidal metal ions, [and] compositions based on thermoplastic polymers, comprising such agents."

Applicants respectfully request that the listed documents be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 06-1447. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 06-1447.

Respectfully submitted,

Date 12/23/03

By M. Scott McBride
